

Plasma Physics and Astrophysics up to 2020 and beyond

International workshop in honor of Pierluigi Veltri's 70th birthday

7-8 October 2019

Università della Calabria, Rende, Italy

The goal of the workshop is to review the main achievements in the last five decades and to discuss the future developments in plasma physics, from laboratory to space and astrophysical plasmas

Invited Speakers:

Vanni Antoni (CNR, Padova)
Stefano Atzeni (Univ. La Sapienza)
Giuseppe Bertin (Univ. Milano)
Guido Boffetta (Univ. Torino e INFN)
Claudio Chiuderi (Univ. Firenze)
Edvige Corbelli (INAF-Arcetri)
Giorgio Einaudi (George Mason Univ.)
Attilio Ferrari (Univ. Torino e INFN)

Roland Grappin (Lab. Phys. Plasmas)
Pasquale Londrillo (INAF-Bologna)
André Mangeney (LESIA)
William H. Matthaeus (Univ. Delaware)
Mauro Messerotti (INAF-Trieste)
Angela Misiano Martino (SAIt)
Francesco Pegoraro (Univ. Pisa)
Annick Pouquet (NCAR-UCAR)
Marco Velli (EPSS, UCLA)

Programme Committee:

Tommaso Alberti, Vincenzo Carbone, Antonella Greco, Fabio Lepreti, Francesco Malara, Giusy Nigro, Marco Onofri, Silvia Perri, Denise Perrone, Oreste Pezzi, Leonardo Primavera, Sandra Savaglio, Sergio Servidio, Luca Sorriso-Valvo, Francesco Valentini, Antonio Vecchio, Gaetano Zimbardo

Contacts: giusy.nigro@fis.unical.it, antonella.greco@fis.unical.it

Credit: American Physical Society

Participants are encouraged to submit an article related to their conference presentation to the *Rendiconti Lincei. Scienze Fisiche e Naturali* (Springer <https://link.springer.com/journal/12210>) in the Classical and Quantum Plasmas Topical Collection. These articles will be listed as the written, peer-reviewed version of a paper presented at the Conference PLASMA PHYSICS AND ASTROPHYSICS UP TO 2020 AND BEYOND'. 7- 8 October 2019 (guest editors F. Pegoraro and F. Valentini)
Submitted articles will undergo a regular review process.
